-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

Art Unit: 1762

1. Applicants amendments to the independent claims differentiate their claim process from that of Im (6368945) as previously discussed in earlier actions, however the addition of this limitation to the claims has not been provided with any support and as was indicated in an earlier action of 5/23/05, section 3 the first stepping limitation of this amendment did not appear to have support then, and that defect has not been corrected.

2. Claims 5-14 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter, which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

To reiterate, applicants have again added new limitations for stepping the stage in second direction after completing all block's crystallization in the 1st direction, but given no support therefor. A review of the figures, shows no irradiation pattern that suggest shifting in any direction but one, i.e., essentially like IM, showing only linear array of blocks. Nor was any discussion of a 3D array of blocks and/or the claimed second direction shift and implied (and argued) next row of blocks found in the body of the specification. While [0043] discusses options of X and Y axis directions, they are equivalently presented as the movement after crystallizing one block, not alternately used or used in the claimed series of steps after a row of blocks. For these reasons, lacking a showing in the original specification, the claims as amended appear to contain New Matter.

The present amendment has additionally added in other stepping limitation that further modifies the previous unsupported limitation, such that if there is no support for the first one there can't be any support for the second one, hence it appears that applicant has again introduced New Matter into the claims.

3. Applicant's arguments filed 1/4/06 and discussed above have been fully considered but they are not persuasive.

Art Unit: 1762

4. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Marianne L. Padgett whose telephone number is (571) 272-1425. The examiner can normally be reached on M-F from about 8:30 a.m. to 4:30 p.m.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Timothy Meeks, can be reached at (571) 272-1423. The fax phone number for the organization where this application or proceeding is assigned is (571) 273-8300.
